Education

Bachelor of Engineering in Information Science

REVA University

2024 - 2028

CGPA: 9.2/10

Technical Skills

Programming Languages: Python (Preferred), C/C++, TypeScript

AI & Data Science: NumPy, Pandas, TensorFlow (Keras), Matplotlib, Machine Learning Fundamentals

Frontend Development: React.js, JavaScript, HTML5, CSS3, Tailwind CSS

Backend & Databases: FastAPI, Node.js, Express.js, MongoDB, Supabase, PostgreSQL

Tools & Platforms: Clerk Auth, JWT, Git, GitHub, Vercel, Postman

Experience

Development Team / GDGoC

Nov 2025

- Part of the Google Developer Group (GDG) On Campus REVA University as a Developer.
- Engaged in full-stack development projects that enhance developer learning and community engagement with **effective communication**.

Technical Member / HACC

Sept 2025

- Contributed as a developer in multiple hackathons, focusing on building web portals for participants.
- Collaborated with the core development team to improve code structure and enhance the platform's efficiency and maintainability.

Projects

LakshyaAI | Team Lead |

Aug 2025

- **A digital career counseling platform, designed to guide students with AI-powered mentorship, interactive career simulations, curated learning resources, and mentor-student collaboration.**
- **GitHub - github.com/SnippetTechie/LakshyaAI**

HACC-IT | React.js, framer motion

Sept 2025

- Built and deployed the **official hackathon portal** for Hackathon And Coding Club, serving as the registration and results platform for **350+ participants**.
- **Live:** hacc-it-2-0.vercel.app — **GitHub:** github.com/SnippetTechie/HACC-IT-2.0

Ranked | Node.js,

GSAP

July 2025

- As a part of the winning team project, I implemented authentication using **JWT auth** and also enhanced the landing page with smooth GSAP animations for user experience
- **Live:** ranked.vercel.app — **GitHub:** github.com/SnippetTechie/Ranked

Achievements

- Won first place at **SIH 2025**, organized by OStCode for developing LakshyaAI, an AI powered career guidance platform for students. [Link](#)
- Successfully completed **6+ pull requests** across multiple open-source repositories on GitHub, and earned the **Super Contributor Badge** for impactful participation at **Hactoberfest**. [Link](#)
- Achieved professional certification from **Oracle University**, validating knowledge in cloud infrastructure, deployment pipelines, and secure application development. [Link](#)
- Built a fully responsive **portfolio** website showcasing projects and open-source work. [Link](#)
